

Hearing Screening

Hearing screening for all Kindergarten and 5th grade students will be held in September.

You will be notified of the results of the screening by mail if your child needs further assessment by a specialist. Otherwise, your child will hand carry his/her report home. Expect results within 2-3 weeks after the screening.

Only Kindergarten and 5th grade students will be screened on that day. However, should you have concerns regarding your other children's hearing please feel free to call me. I would be happy to screen your child at any time upon request.
